Good Morning,

We have determined that the DMV system changes implemented in August of this year unexpectedly affected the performance of the [DMV Provisional Research Report](#) process. Our IT department is working with the DMV to resolve this issue. We are aware that this report is needed for you to perform your provisional research. We'll keep you posted on the progress of a resolution.

At this time, you should continue to enter provisional data and perform your research as normal. We will update everyone once the DMV provisional research data is available.

Subject: RE: DMV Provisional Research Report

Good morning

If we process them as usual will the requests go into a que until they can be processed or will we have to resubmit them once the patches are in place to allow the process to be completed?

Thank you
